TRIP DESCRIPTION:

For the field trip we will meet at the Georgia State Botanical gardens on Saturday by 7:30 am to catch the beautiful morning light. We'll wander about the gardens shooting shots with time for advice and questions. By 11 am we'll head over to the Ramsey Student Center for a review/critique session for those who have shot with digital cameras. We'll spend time looking at each other's photos and talking about what worked and what didn't—and hopefully end up with a few great shots to inspire you to spend more time outside with your camera!

A reminder email will be sent prior to this clinic.
